9. **permission slip for memorial day parade.doc** May 15, 2009 8:08 AM by Prakash Tambe

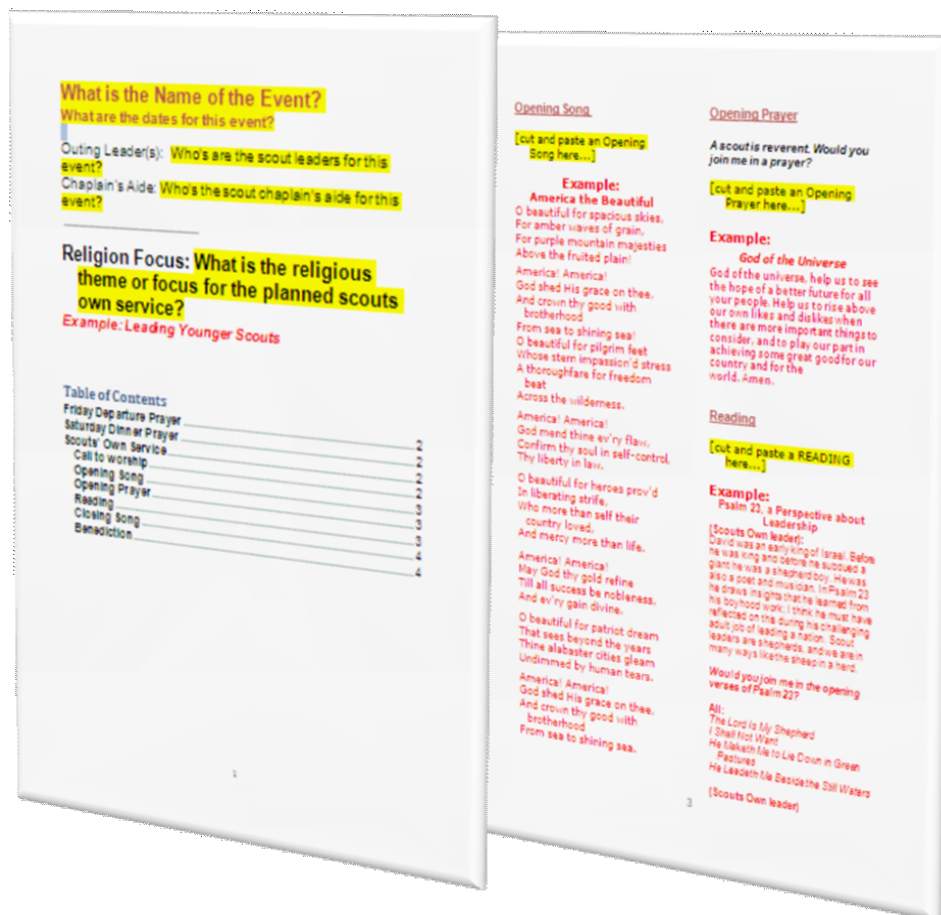

After you log into the troop website, you can type 'scouts own' into the search field to find the template...

2 Ways to find the Scouts Own Template

You can find the scouts own template in the 'forms and checklists' folder in the troop website.

When you open the file, you'll get a series of questions that you can either answer or skip. When the questions end, you'll see the scouts own pages.

The red text can be deleted. It is only there to show you an example of what each section could look like.

If you answered the questions, then your content will be shown with a yellow background. If you did not answer the questions, then the questions will be highlighted so that you can modify them with the scouts own material that you want to present.
